

Kerb adaptors to outlast the estate!

Is your council left to maintain inferior kerb adaptors after the maintenance period expires on your land developments?

Then you owe it to your ratepayers to insist on the White Industries cast iron kerb adaptor.

This stunning piece of casting will improve the amenity of any street initially and for years to come.

Yes, councils everywhere are looking for more efficient ways to maximize their budgets and the use of the White Industries kerb adaptor at the time of development is the sure way to remove kerb adaptor replacement from the maintenance program permanently... period!

And it's definitely a huge advantage not to have ugly patched concrete kerbing marring your streetscapes.

It will not escape the attention of progressive councils that the liability associated with trip hazards and vehicle damage will also be avoided.

- Options for volume orders:
- ✓ Your kerb profile
 - ✓ Various powder coat colours
 - ✓ Your logo cast into each one

Why not insist on your developments having the White Industries kerb adaptor that has the lowest whole of life cost and the best street appeal.

White Industries... your one stop casting shop!
